

HERO!

Hurricane? Let PetroLiance be the **HERO.**

Call Us at 877-738-7699

If you're concerned about keeping your fuel powered equipment running during a potential hurricane, you may want to consider PetroLiance's Hurricane Equipment Rental Offer. (***HERO!***). It's inexpensive insurance for your business!

Key Components of the Program:

- Rented (UL rated) dual wall storage tank for your generators or fleet
- 12 volt dispensing pump with hose and nozzle
- Equipment delivered and set up on your site prior to storm season and picked up after the season
- Fuel is pre-treated to withstand long term storage at high temperatures, so it's ready when needed

Pricing:

- 500 gallon UL rated dual wall storage tank with pump, nozzle and hose - \$200 per month
- Delivery and set up - \$250

Note: Additional conditions apply.

***HERO!*.....The fine print**

- Minimum rental fee - \$400. We will pro-rate rental fee based on the day the tank is delivered.
- Delivery fee based on site location within 30 miles of our facility. For sites outside this area, additional delivery charges may apply. (\$1/mile for each mile over 30 from the Miami plant) The delivery charge includes pickup at the end of the term.
- Customer may choose on-road or off-road diesel fuel. On-road may be used for all purposes and instructions will be provided for customer to apply for tax refund for off-road use.
- There is an E&C (Environmental and Compliance) fee charged for all fuel deliveries (\$12.50).
- PetroLiance will pump out any fuel remaining in tank at the end of term. Cost for pump out is \$250. Fuel will be credited at the price invoiced less \$.50 per gallon.
- Customer must sign rental agreement which will detail all costs. There is no purchase volume requirement
- Customer is responsible for damages or vandalism to equipment
- Customer is responsible for any permits required
- Customer must be approved by PetroLiance Credit Department.
