

In one **split second** you can decide to take great care of your engine and the **earth.**

**Now that's a bargain.**

Motor Oil doesn't wear out, it just gets dirty. Medallion Plus Horizon starts out as used motor oil — your motor oil. The reclaimed product undergoes the same severe refining process as crude oil, resulting in base oils that are equal to or surpass virgin products. They are fortified with advanced performance additives resulting in a premium oil that meets or exceeds industry specifications.

API Certified re-refined motor oils are approved by major manufacturers like Ford, GM, Chrysler and Mercedes Benz.

Medallion Plus® Horizon motor oil provides superior wear protection and resistance to thermal breakdown resulting in longer, healthier engine life.

- **Superior protection for long engine life**
- **Excellent cold weather starting**
- **High temperature operation**
- **Keeps engine clean and deposit free**
- **Meets or Exceeds OEM Specifications**
- **Great Value**

Medallion Plus Horizon is an API certified SN (GF5) motor oil designed for use in gasoline fueled automobiles and light trucks.

**1 barrel** of used oil produces the same amount of base oil as 42 barrels of crude oil.

**50-80% less energy** is needed to produce re-refined oil.

- **Protect your engine**
- **Preserve a non-renewable resource**
- **Protect the environment**
- **Reduce dependence on foreign oil**
